

It was a painful blow  
to us knowing our only boy  
was a fine man & a  
brave officer. He never  
completely let once his wounds  
of the last war "rest" in  
France last year ago. I  
am grateful however and to  
his staying at our home  
at the camp & letting me to  
be one of our last friends  
he had been in my arms  
I regret now

I shall be glad to hear  
from my old friend at times  
I came off a fine team  
last season since to the  
only leaving Canada & the  
months before. It was a  
wonderful change. I was a  
member every minute &  
they had just spoken  
I have these photographs  
the latest 23 is an officer  
in the 17th Regt Engineers. The  
other one is with the 1st  
& the younger is 10

Your Uncle Ollie was a  
fine negotiator & we  
kiss him & Dr. Shuman  
very much. We are in  
this war for everything  
we possess - & may lose  
but I am sure we shall  
be victorious - Good  
Shanell enjoy one swap  
of paper with us please

It is 5-3 years this year  
since I met him first.  
He was a good husband  
& father & a true friend  
& meeting him always  
gave me great pleasure  
I am not believe that it  
is 23 years since you were  
in Mexico & since you were  
in my office in the Boston  
building, what changes  
since then?

you will probably not  
be able to read this  
account - but you must  
know it -

write to me - try the water

Sweden - Sweden - Sweden

Sept 5.5. - from my heart -

express to see my dear friends

because we are

your sincerely

Yours sincerely

Weber City, Alta

KINGSWOOD  
THE HEATH  
WEYBRIDGE

March 22 48

My dear Hope

I was glad to  
sit down later & to know  
you are alive & well  
I am almost afraid  
to ask about any one  
near later I be sure that  
he is all that you say  
I could not find one  
person in Ireland who  
had ever seen me or  
a boy

During the week I lost lots  
of letters - the day it was  
delivered was late here - first.  
About the date - we were away  
leaving every thing in the  
house - more expressing &  
in any of it again - you  
as you know necessary for  
place during the first 5 months  
so we returned - found that  
the house had not been  
broken into - but papers had  
been a burst as the place

was full of ice - we had  
been staying with my  
Aunt in New Britain, she  
has a very big place on the  
south coast - she sent  
over cars for us - my wife  
& my son - my 4th son - &  
two children - 3 months  
few of the on side were down  
a very muddy foot - caught  
by the wave. My son died  
in Scotland & a month or  
so before the war - but my  
wife lived through that

except grass - the sheep  
in the cellar & every night  
the house was shaken to its  
foundations by explosions. The  
first bomb which fell was  
no less than some of our  
Chamney & killed 50 people  
I can't describe the manner  
of those gas - every night  
we thought would be our  
last. My grandson was in  
I notice for gas & my  
elder front daughter when he  
to a very dangerous place

3  
Africa is with him in  
Seymour & they have  
been in Australia for a few  
& loved it as Catalunha  
are very difficult in Australia  
She took a very much more  
well her - a fine chance  
for the more having such  
a trip. I make I could  
have for - but I am  
not allowed to go anywhere  
as I don't want to go anywhere  
who don't want to go anywhere  
allowed to travel

Post-vent I shall be 86  
- I feel very well - but  
I can't see to read a word  
now can I see what I want  
to do. Very kind of you  
to offer to send me things  
but my dear people we are  
not doing all right - very  
frustrated because of something  
but as for a library I cannot  
be sent to England. The  
duty on it is very high -  
on some of the books costing  
10 cents each & now \$1.20

In a parcel we would be  
convinced - one would  
fit into good handle about  
it. I believe things are very  
cheap - one is not allowed  
to buy more than 1/4 <sup>cents</sup> ~~each~~  
book of more in a week (28c)  
I am sure we have a very  
large section so we have  
lots of fruit & vegetables  
every thing is for sale  
- I expect amusement is  
not enjoyed - by the young  
taking things over.

All my measurements were  
American feet. My shoe ~~at~~  
taken from me by the post.  
at the stamp here for  
instance, I put \$4.00  
for C. P. R. - what cost one  
\$2.00 a shoe. My wrist,  
bust, etc. English. Stamp was  
also taken over. Southern  
Railway 5 p.c. was taken over  
the green front. stuff paper  
only 3 p.c. on which the 'a'.  
Come box is 50 cents in a B/  
has numbered me 4  
of my old letter from 3 others  
back of me  
of my one & another

29 May 1948

Letter from  
Dr. D. Moore Lindsay  
to Hope M. Mohr

May 29 '48

My dear Hope

The cornucopia  
box of business arrived today  
from my dear generous wife  
you ought not to have sent  
the shoe lamp - because we  
really got a first deal of  
first of sorts. When I saw  
the tin labeled German I  
thought of the stuffed shoe  
you want to have - now  
don't think that I shall not

enjoy the ship you and  
 but what have me the greatest  
 pleasure was being remembered  
 by good friends of so long  
 ago - I sat by the fire for  
 a long time and my very  
 kind eyes shone - I needed  
 my life in these so sunny  
 to ~~through~~ I feel just here  
 there & it made me say out  
 to think of how many had  
 gone where I must soon follow  
 so this is my 89 year

I am now well and  
 live with a better memory  
 than I have. It was 60 years  
 ago this I remember that I drove  
 into Ketchikan the day we  
 took the steam. I can hear his  
 voice now with the thumping thumping  
 of John D. Sweeney's wooden leg  
 as he came out for the small  
 followed by Mr. D. - All things  
 a packing. I feel me in  
 the hotel & felt with curiosity  
 began question - Did you come  
 from the boat? Are you going  
 to sit. How do you spend it?

When I said I was a girl  
who had been told there was  
no oxygen in space B  
She said at once that the  
American people did not use  
space so she wanted to go  
space - I thought her & said  
I would go on to S.F. in the  
morning - but that as I was  
there I should call on the  
principal person in the house  
She said she would come  
with me & introduce me  
I said that as she knew nothing  
about me she could not as  
I would go alone

3  
So I called on President H.  
& found him some people &  
I am an old acquaintance before  
the great day. I told them  
that I had the experience of  
to Royal Excesses of I knew  
I had them in my pocket  
I had just arrived from the  
East Indies & had been in  
South America & had spent  
before that - now I had spent  
up the sea & wanted to return  
down. I had a long & very pleasant  
visit - the President said - the  
world goes here - just stay  
where you are

I am I feel terribly lonely  
as one that who sees all his  
friends go on. My first regret  
he had a opportunity with  
Custodians is now in Singapore  
the husband being in the Army  
My husband is returned from 4 years  
in service in the Royal Engineers  
he is now pay 11 lb a week  
in Switzerland. Rumors are  
to him there. But never a day  
old friends - a lovely day  
again

Yours ever

Ym are sincerely  
Ever all the things  
in some degree away - but the P.D

My dear Hope

Aug 2, 1948

~~My dear Hope~~

Many thanks  
for your letter - We had  
after 6 and in things  
but we are buying means  
as badly off as you may  
imagine - This is our season  
of abundance as we have  
a large garden full of  
vegetables - an acre and  
full of peaches - a very

Grand daughter in Singapore  
sends no word - I wish  
we can show I shall  
at once apply to my  
friend Hope. Long long  
years ago - in 1888 one  
day I drove up Cencer  
Creek - visited a house  
where I saw a pretty  
little girl - a number  
of children - her name was  
Sadie

2

- I was told that a  
short time before both her  
father & mother had died &  
that she had the responsibility  
of bringing up those children  
I remember being so sorry  
for her - but I knew she  
was surrounded by very kindly  
neighbors - I started up  
the canyon I had  
a few sheep & I was told  
they belonged to John Austin  
& so I long ago associated  
John - Sadie & the sheep  
& the names of J & S.

have always occupied a  
much in my brain with  
your father's name & some  
thoughts - others as being  
people of the utmost  
& solemn & most important  
business thing I dreamt  
these days seem a long  
time ago - but I remember  
all very accurately. The most  
southern place in Scotland  
is called John O Groats -  
the most northern place in  
England is St Andrews.

3  
About 40 years ago I recollect  
John O Groats as of course  
I must have. St Andrews  
& I have just been there  
- there too was much to see  
but the ship took me through  
the length of Cornwall & what  
is a very interesting country.  
The ten names there have  
been marked for 2000 years  
but now they have almost  
no signs so high that they  
can no longer be reached.  
There is always the chance  
of very high water destroying

Am. industrially enterprise  
so leading to unemployment  
unless things can be produced  
at a smaller price the world  
must close down - There  
are considerable house many large  
presses - I also visited the  
Chester Caves in Somerset  
- but no more caves for  
me - I have seen so many  
from the 7th small cave is hundreds  
to those in the 10th ones - but  
I am so badly that I find  
them all alike.

4  
I found Southampton a  
very nice small town  
to see - just across the  
of water - but the city of  
Bath was charming - I had  
been there long ago but  
I remember them - but the people  
it is was a great name  
in Rome in times 1600  
ago. One day during our  
journey I had absolutely  
coming from Dublin but that  
as I drove over to see the  
was being measured & found  
an impression of man

With Alcumum down - He had  
been taken sick of the cold  
- put on a chair in the  
dun - then he was kept a  
the dun moved to another  
place - he was being thrown  
one night I did a very  
brutal operation at which  
wasnt - there were several  
feet of snow on the floor  
so it was open to the wind  
on one side - In one of the  
bathing boxes lay a man  
who had been thrown

5  
down the stairs having  
been found the unconscious.  
The man who came for  
me did not return for  
two days. I did not  
a lamp but a snow shov-  
el hit the stove & it was  
so a Phillips lamp was  
source of light. - Now I will  
tell the lamp was on the  
- the oil lamp was on the  
with the side - The owner lay  
on the floor - I saw that his  
shoulder was broken but

so I cut down & lightened  
his skull removing all bones  
from him he knew (Did  
any one else ever do such  
an operation under such conditions?)  
I attended him for months &  
he recovered completely - one  
day I found he had some  
without even saying that  
I was his name was Donald-  
Ray - Now I was all the things  
my back & with the same to  
himself. Ever your sincere  
friend & admirer  
Thomas A. McIntyre

28 Feb 1949  
Letter from  
Dr D Moore Lindsay  
to Hope M. Mohr.

Feb 25 49

My dear Hope  
Very many thanks  
for your letter & for your  
kind offer to send me things -  
How I appreciate this! I wish  
so much as though you had  
sent me the whole to make  
Range - but we do not do  
so readily now - some things  
have improved very much - not  
as output & prices - on any  
other thing. The main thing  
is the purchase tax which is

on good things - such as  
first class clothes - 400 per  
cent - There is <sup>all this</sup> lovely stuff  
on which there is no tax  
but it is very expensive  
Now it is difficult for you  
to understand <sup>condition</sup> conditions here  
without knowing the country  
The houses are very large  
- require a big staff of  
servants - <sup>these</sup> there can be no  
comp. he had <sup>at</sup> any  
rate their pay has gone up  
very much while the income

2.

of the owner has been  
reduced by taxation to a  
small <sup>fraction</sup> fraction of his requirements.  
If you take a man who  
had an income of £10,000  
a year - remember that he has  
all his life been accustomed  
to spending that amount - Now  
he pays 1000 on the first 2000  
+ 6000 on the next 8000 so  
he now has only 3000 to live  
on while the <sup>cost</sup> cost of living  
has gone up from 10,000 to about  
25 or 30,000 so he is down &  
out. Labouring people are much  
better off which is good but

It was limited "decided  
so I got back to a school  
house part of his house - so I  
lived there all alone - so I  
20 cents - so the whole school  
of 200 fees was all there  
half of teachers "cents -  
been toward in part of money  
I got under this school was  
in back. Last 3. sent in  
other day so of course to have  
last letter 1/3 of his estate in  
small duty so by Hayes they  
will get it all - then sent  
them one the money of

4  
Census - this is a bloodless  
revolution - the U.S. is a new  
country so gets from revolution  
for the present. I got a long  
interesting letter from John and  
he is a fine steady man - so  
down well - his money are  
strong well there is no place  
I want to send so much as  
America a Canada but there  
are the places I can move to  
so they are dollar countries  
the are not allowed to spend  
a single dollar so the are  
so much money to the countries  
to him I trust in better on only

now need 12 per cent but it is  
least less than 3% income  
tax is lost of this - such a loss  
income 75 the cent - on  
very low income as  
19.6 in the present depth  
20 shares in the present & there are  
several one to all old friends  
you are having a lovely house  
while we are having summer  
but I don't know what we may  
have later on I should love to  
stop in & see you all

Our sincerely  
affectionate daughter
